

Client Mission

What does the ArtBlok team want site visitors to do?

The priority goal is to just bring people into the building. This could be an event, visiting with an artist at their studio, or just exploring the random corners of the historic building. The building can seem ominous, overwhelming, or confusing. It is certainly a delight when a sale is made. But the assumption is if we can effectively extend the invite and overcome the problem of the building’s perceived ominous nature, then the rest will follow...

End User Goal

Tasks & Subtasks

Concepts > References

*Find my way to and through the 2010 ArtBlok building...*

- 1) Find location information for 2010 ArtBlok
- a) turn on device and open browser
